What IS THE STUDIO?

The Studio, which is run by its members, is a weekly workshop designed for men and women in the television industry. You can hone your craft, showcase your talents and take on new creative challenges. Our members are actors, writers, directors, producers, story editors, directors of photography, technicians and other industry professionals. The Studio gives you an opportunity to network, advance existing projects and develop new ones.

It offers you a chance to get professional, constructive feedback on your work, from both prominent guest consultants and fellow Studio members, in a supportive environment. Audience members also benefit from viewing someone else's work process.
